Participant's opinion about his/her personal & professional development

I always wanted to visit foreign country, to immerse myself in other culture, to know other people, and language, and I finally my dream came true. Malaga is beautiful city and Spain is beautiful country. I really enjoyed my staying here. I wish I could stay here a bit longer with my friends, the atmosphere was really family like. In Croatia they speak different language, have different culture and traditions. They have beautiful country, mountains, and sea too!

Participant's opinion about his/her personal & professional development

It has always been my dream to go to Spain because of its culture, music and, above all, because my mother instilled in me love for it with stories about this beautiful country. The memories I will take from this country will certainly be unforgettable and I will remember them as a great adventure. The most beautiful memory will be the trip to Granada. I really enjoy the internship and the atmosphere is nice. In Spain, I was surprised by the attitude of people. They are much happier and fuller of life than in Poland. I love that everywhere we go there is music playing and it is very cheerful. In our free time, we walk a lot and explore Malaga.

Trip to Spain was always my dream. I can admire beautiful vegetation and architecture here. What surprised me in Spain was that people really care about their pets, I did not see a single stray dog during the entire trip. I will remember the internship very well - the friendly and family atmosphere. I can see that they really wanted to teach us useful things. I learned a lot about company administration. In our free time we did a lot of sightseeing. I am glad that I had the opportunity to live in Malaga and meet a different culture and people.

I wanted to do an internship in Spain because I wanted to develop my knowledge and gain it from professional photography studios. I really like the diversity of people in the city, I noticed that there are a lot of different people from different parts of the world here. I was surprised that in public transport you only enter through the front door and exit only through the back door.

Internships in Malaga and in Poland are different in that there is a very large language barrier, because in my case the employer does not speak English at all and it is very difficult to communicate with him, we usually use Google translate, which is tiring.

In my free time I edit photos from trips organized by Euromind and our teachers and watch TV series.

This trip is great. During it, I made many interesting acquaintances and met equally interesting people from the group and their caregivers. We spend our time mainly actively, with a few exceptions, because rest is equally important so as not to miss anything with such an attractive sightseeing plan in such a short time. I really like my internship place, even though it takes 1.5 hours to get there. From the very beginning I felt at home there and the staff welcomed me very warmly. Already on the first day I started responsible work in accounting business operations, which makes me very happy because it is related to my future work in my profession.

PROJECT MANAGEMENT

1. Mobility Project Preparation & Induction

Before the arrival of your trainees in Spain, Euromind provided them with the pre-arrival guide, including useful information, local transport & social life, emergency numbers.

Euromind has also arranged Skype meeting with the participants in order to get to know them and to interview them.

After the Skype interview, Euromind created a Facebook group to which all the selected participants were invited, together with their teachers. This way Euromind Coordinator had constant contact with the target group already before their arrival in Spain.

Once the Skype interviews were delivered, Euromind upon a thorough analysis of the participants' studies and profile provided each one of them with an adequate work placement.

Euromind took responsibility for preparing Learning Agreements individually for each participant and made sure that all the parties involved signed all the necessary documents.

On the first day after the arrival, Euromind organized the welcome session during which the participants got to know the Euromind team, were reminded about the programme agenda, accommodation rules and dissemination strategy options.

Later on, the participants were taken for a walk around the neighborhood to get to know the area and find out where banks, mailbox, workplace, supermarkets, bus station are.

2. Monitoring & Mentoring

In order to make sure that the objectives of the Learning Agreement were going to be achieved and that the participants would be fully integrated in the companies' work culture, the monitoring was delivered by all of the parties involved in the project.

Euromind assigned a Mentor for the group of participants who was responsible for the introduction of the participants to the host organisation(s). During the work placement/training the Mentor delivered monitoring visits to the work placements in order to revise the tasks of the trainees, their progress as well learn from the first hand the level of satisfaction of both the participants and the host companies/ training centre tutor.

The mentor in cooperation with companies Tutors carried out the evaluations of the trainees in the middle and at the end of the trainings.

After obtaining the results of the half-way through evaluation, the Mentor met the participants to give them the results of this evaluation. The least favourable results were discussed with the participants in private so that both the Mentor and the trainees had the comfort of sharing the information and exchanging the opinions and finding solutions to some problematic issues.

Host organisations assigned a member of its staff as a tutor. The tutors from the host companies were responsible for helping, informing and guiding and supervising the work done by the participants. The tutors had regular meetings with the participants in order to assess their presence in the company as well as to discuss the tasks and responsibilities according to the needs of the company and the participants.

Euromind at the end of the programme during the goodbye session handed out evaluation sheets to the participants so that they could assess their stay in Spain, work placements, as well as the work of the Euromind.

Euromind was also available to the participants 24/7 in case of emergency.

3. Communication

Euromind takes good care of successful communication between companies and trainees. Each evaluation of work is aimed at improving the quality of cooperation. Each party is thoroughly checked and assessed, and the necessary improvements are introduced. Moreover, Euromind mediates in this supervisor-trainee collaboration by translating and solving language-connected complicated matters.

4. Dissemination strategy

Euromind took active part in the process of preparing and dissemination results of the project together with the sending organisation and participants.

While the trainees were in Spain, Euromind involved them in a number of activities the aim of which was to make students monitor and collect all the information related to the progress of their work placements and stay in Spain. The materials produced by the participant would be then used as tools for disseminating results by the school in their country and by the partner in Spain.

The participants could work in groups or individually. On the first day they needed to decide on the form or forms of recording their professional experiences.

As a rule, the whole group needed to create a Facebook fan page as it is an effective and quick means of accessing large numbers of people. What is more, it is a form that appeals to young people as they can share their experiences instantly and receive instant feedback, too. The fan page is always linked to the Euromind's Facebook fan page. The sending organisation was also asked to do the same thing.

This way the material produced by the trainees reached bigger audiences and was more effectively disseminated.

Euromind also disseminates the project at a local level. It organises language and cultural exchanges between the international trainees and students from local vocational colleges. During those meetings both Spanish and International students are involved in a number of activities the aim of which is to get to know each other, share experiences related to work experiences and in general their stay in Spain. The students also exchange information about their countries and cultures.

5. Certification

To validate the acquired skills, the trainees, at the end of their stay, received complete proof of their participation in the project by means of several methods of recognition:

- Training Certificate
- Europass Mobility Certificate

CULTURAL PREPARATION

1 Cultural activities, Andalusian cities & places visited during the programme

Walk around Malaga city centre

On the walk around Malaga city centre the trainees were able to see Malaga's oldest parts and explore its history. Dating back to almost 800 BC, Malaga is one of the oldest cities in the world. The tour passed by ruins from The Roman, Moorish and Christian civilizations including The Roman Theatre, The Alcazaba, The Cathedral of Malaga and St. Johns Church.

Day trip to Cordoba

Córdoba was a Roman settlement on the right bank of the Guadalquivir, taken over by the Visigoths, followed by the Muslim conquests in the eighth century and later becoming the capital of the Umayyad Caliphate of Córdoba. During these Muslim periods, Córdoba was transformed into a world leading centre of education and learning. Following the Christian conquest in 1236, it became part of the Crown of Castile. It is home to notable examples of Moorish architecture such as the Mezquita-Catedral, which was named as a UNESCO World Heritage Site in 1984 and is now a cathedral. The UNESCO status has since been expanded to encompass the whole historic centre of Córdoba, Medina-Azahara and Festival de los Patios. Much of this architecture, such as the Alcázar and the Roman bridge has been reworked or reconstructed by the city's successive inhabitants.

Day trip to Granada

Granada is the city of three religions and cultures: Judaism, Christianity, and Islam. The great variety of stunning landscapes and views that Granada has to offer since the city is located at the foot of a mountain range called Sierra Nevada. Among the most interesting places to see, we can mention: The Albaicín district (with the Mirador de San Nicolas), Plaza Nueva square (St Annes Church), The Acaicerí market, Bib Rambla Square, the Cathedral, the Alhambra and the Generalife views, and also the Sacromonte district where gitanos (gypsies) built up their houses in caves. But the highest praise deserves the Alhambra, a fortified palace complex on the UNESCO World Heritage.

SUMMARY OF THE PROJECT

Euromind team did their best in order to deliver the best professional and cultural experience to the trainees of the project being always ready to help, give advice and solve any problems or doubts.

The trainees were fully satisfied with their work placements. They gained much needed professional experience abroad which is highly appreciated and sometimes even specifically asked by today's employers.

We have no doubt that our trainees will use their new knowledge and experience at their current work in their home country or increase their chances at the labor market and dazzle their future potential employers.

Moreover, the trainees learnt the basics of the Spanish language were able to work in a multi-cultural environment and proved themselves with the ability to work individually as well as in a team.

Euromind team was extremely satisfied with the trainees' involvement in the project and personal interest in whatever they participated in.

This project was very successful, and we hope to realize other successful projects with Zespół Szkół Ekonomicznych im. Janusza Korczaka w Dębicy in the future.
